

Adding a Past Medical History to the Active Problem List

1. Right click on the problem from the patient's problem list. Click Edit.

The screenshot displays a clinical software interface for a patient named ETHAN. The interface includes a navigation bar with 'Daily', 'Clinical Desktop', and 'New Note' tabs. Below the patient name, there are various icons and a 'Select Patient' dropdown. The main area shows a 'Problem List' with a table of medical conditions. A context menu is open over the 'Problem List' section, with the 'Edit' option highlighted in yellow. The 'Problem List' table contains the following items:

Problem	Notes	Labs	Radiology
All	Problem List
