

Focus Areas for 2022

As we head into the fourth quarter of the year, we ask that you focus on the following measures:

Assessing HCC Codes

Make sure to write something about each code being assessed in your note and add it to the encounter form

Colonoscopies

- Colonoscopy is the best choice; however, the following tests also close the gap:
- iFOBT (good for one year)
- Cologuard (good for 3 years)

Reconciliations - list needs to be reconciled annually

- Problem list
- Medication list
- Allergy list

Annual Wellness Exams

Encourage patients to schedule and keep their annual visit!

Verify asthma controllers and rapid response medications

Blood Pressure control

Take twice, and if still high, bring patient back w/in 6 weeks for recheck

Mammograms

A recent assessment found that of 202 gaps reviewed, only 32 mammograms have been ordered so far in 2022.

Save the Tatas! Get those mammos ordered!
