

How to add the Drug Screen in the Prenatal Module

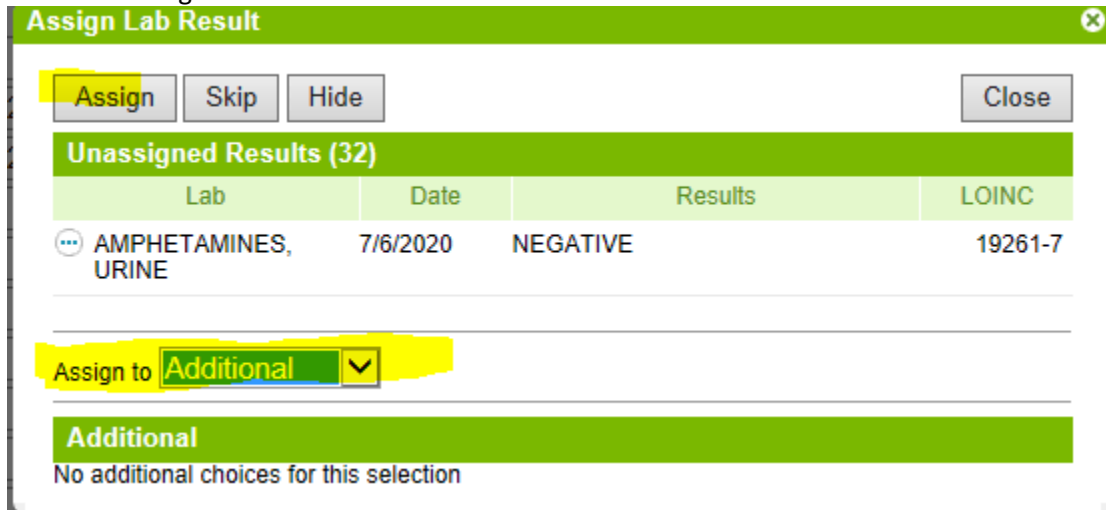

- Go to the Labs tab
- From Additional Labs on the right, click Unassigned Results

- Click the green box  beside the lab (drug screen result) that you want to Assign and choose Assign in the menu

- From the **Assign Lab Results**, select *Assign to Additional* (from the dropdown)
- Then click Assign

- The next value in the list will pop up. But you may not want to Assign it. If so, click Skip.

Assign Lab Result ✕

Unassigned Results (31)

Lab	Date	Results	LOINC
🚫 Urine Pregnancy	7/6/2020	Positive	2106-3

Assign to

Additional

No additional choices for this selection

- Then you continue, until you have assigned all of the labs for the drug screen.
