How To Invalidate a Note

1. If you have a Note output that you need to delete or invalidate, open the Note.
2. From the middle note input section, click on the menu option.
3. Choose Invalidate.
4. Choose Ok.

5. Close the note.

6. Residents can’t invalidate note.

7. ACOG’s and Unstructured letters aren’t invalidated using this process.

8. If an invalidated note needs to be reconstructed, please contact the EHR team.

I. From the note View, you can choose Invalidate from the bottom menu too.

Plan

The patient is to be discharged.
