

# Tips & Tricks Weekly

## Medication Ordering

Happy Wednesday ETSU Health Team! This Tips and Tricks will address Medication ordering and the various options you have when ordering medications. We will discuss quick chart and quick appointments, medication renewals, antibiotic prescribing, and other useful tips that will not only help you but help your patients. Happy New Year!

- Chantix 0.5 MG Oral Tablet; TAKE 1 TABLET TWICE DAILY; Rx:26Jun2020; Status: ACTIVE Ordered
  - Rx By: ALLS 90 Days ; #:30 Tablets

1. Quick Chart and Quick Appointments will allow you to quickly view upcoming appointments or medical information
2. When renewing medications, be sure to **always** right-click renew with changes.
3. When prescribing antibiotics, only prescribe once.
4. Use "Record DC" or "complete" to move meds to past meds
5. Reconcile medications on each visit **AND** click the reconcile button when you are finished.
6. The evaluate date reflects the date that the patient should run out of medication
7. Tablets are usually cheaper than capsules
8. Prescribe 90 day supplies on maintenance meds, (if the patient wants 30 day supplies, the pharmacy can dispense only 30 days worth of medication)
9. Pro Tip: **DON'T REMOVE TASKS**

Refill 0  Prescribe Once  DAW
