

Order D/C Medications

From the Meds tab on the Clinical Desktop, you have the choice to Record D/C or Order D/C. Although Allscripts attempts to send a discontinue message to the pharmacy when Order D/C is selected, our local pharmacies do not receive that message.

1. Highlight to choose a medication. It will turn gray.
2. Select Record D/C.

The screenshot shows the 'Meds' tab in the Clinical Desktop. The 'Current Medications' section is expanded to show 'Active' medications. The list includes:

- Aleve CAPS; Therapy: (Recorded:21May2019) to Recorded
- Amoxicillin 250 MG Oral Capsule; Therapy: (Recorded:18Apr2018) to Recorded
- Chantix 1 MG Oral Tablet; TAKE 1 TABLET TWICE DAILY; Therapy: 31May2019 to (Evaluate:01Jun2019); Last Rx:07Jun2019 Ordered
- Follistim AQ 300 UNT/0.36ML Subcutaneous Solution; INJECT 150 ML Daily; Therapy: 15May2019 to (Evaluate:17May2019); Last Rx:15May2019 Ordered

- Tylenol CAPS; TAKE 2 CAPSULE PRN headache; Therapy: (Recorded:15May2019) to Recorded

At the bottom of the window, the 'Record D/C' button is circled in red.

3. Enter Status Change Reason.

The 'Change Status' dialog box is shown for patient SUPERUSER, Wonderwoman, 14-Feb-1990 (29 years) F. The status is set to 'Discontinued' and the date is '07Jun2019'. The 'Text' field contains 'Changing Meds' (37 Chars). The 'Defer For' field is set to 0. The following options are checked:

- Insurance Issues
- Per Patient Reporting
- Per provider request--No longer seeing patient
- Side Effects
- Text Changing Meds (37 Chars)

Buttons for 'OK' and 'Cancel' are visible at the bottom.

4. Commit.

5. You can have the nurse call the pharmacy to D/C the medication and prevent future refills from being filled. But you also have the option to include the D/C information in the Pharmacy Instructions for a new medication. The EHR team has confirmed that the Pharmacy will receive these messages.
- In this example the Paroxetine is being replaced by Escitalopram. So the Paroxetine has been recorded as D/C. And now, the script for Escitalopram is being ordered.
 - Enter the D/C information in the Pharmacy Instructions (*Image i*)
 - Save and Close ACI.
