

Annual Wellness Visit

Measure: Annual Wellness Visit (AWV)

Measure Details:

- 1) Adults > 18 years of age
- 2) Members are covered for comprehensive preventative medicine evaluation and management, including:
 - Appropriate history
 - Examination
 - Counseling and anticipatory guidance
 - Preventative care based on age and gender
 - Risk factor reduction interventions

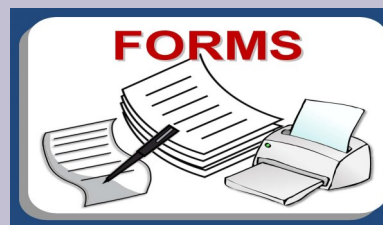

Frequency: Once per calendar year for all products **except Medicare** which is once every 366 days.

Required Components:

- Check height, weight, blood pressure, and other routine measurements.
- Health Risk Assessment (Quality Measure Assessment Form)
- Functional ability and level of safety.
- Medical & Family History
- Patient Care Team/Current Providers
- Medication List/Reconciliation
- Screen Cognitive Impairment
- Screen Depression (PHQ-9)
- Screen Pain
- Provide health advice/referrals/counseling/education/prevention

Physician Assessment Form (PAF):

Medicaid	\$75
Anthem	\$50 - \$150
Aetna	\$50 - \$150
Humana	\$150
UHC Optum	\$150
Amerigroup	\$100
BCBST	\$225 (Jan-June) \$175 (July-Dec)

Remember, the AWV is a good time to assess HCC codes and reconcile the problem and medication lists. Ensuring the problem and medication lists are accurate and up-to-date will reflect the patient's risk score more accurately, which will allow us to better care for the patient.
